2000 SURVEY OF RESERVE COMPONENT PERSONNEL: TABULATIONS OF RESPONSES, VOLUMES 1-5

Preface

The 2000 Surveys of Reserve Component Personnel, also known as the Reserve Components Surveys (RCS), are a follow-on to the 1986 and 1992 Reserve Components Surveys (Rizzo et al., 1995). The Department of Defense (DoD) also conducted a large-scale Reserve component survey in 1991 (Wilson and Hubbell, 1996) and a smaller-scale Reserve component survey in 1994 (Westat, 1995a). Together with the 1999 Active Duty Surveys of Members and Spouses (Gaines, Deak, Helba, & Wright, 2000a, 2000b), the 2000 RCS provides a comprehensive picture of the Total Force. The 2000 RCS were sponsored by the Office of the Assistant Secretary of Defense for Reserve Affairs (OASD[RA]), with particular interest in analysis by the Office of the Deputy Assistant Secretary of Defense for Reserve Affairs (Manpower and Personnel) (ODASD[RA][M&P]).

There are two 2000 RCS instruments: the *2000 Survey of Reserve Component Personnel (Form M)*, and the *2000 Survey of Spouses of Reserve Component Personnel (Form S)*. Members' responses to *Form M* are provided in five volumes (Deak et al., 2002a, 2002b, 2002c, 2002d, 2002e). Spouses' responses to *Form S* will be presented in later volumes. Tabulation volumes were also done for the surveys in 1986 (LaVange et al., 1987a, 1987b) and 1992 (Westat, 1995b, 1995c).

Survey Methodology

Survey Design

Both *Form M* and *Form S* are constructed around a core of questions similar to those used in previous surveys of Reserve component members and spouses, particularly those in 1992. The questionnaires focus on experiences, attitudes, and demographics. The 2000 RCS, like their predecessors, were designed to provide policy-relevant information. These surveys provide information on the impact of military policies on members' families, readiness, and career intent, among other topics. The 2000 member questionnaire had 182 questions on 24 pages. Some questions contain multiple items.

A copy of the *Form M* questionnaire is in the Appendix. This survey instrument has ten sections:

- *Military Background* – includes questions on promotion expectation, component, paygrade, time served, time away from home for military duties, family preparedness, health insurance when last mobilized or deployed, and other questions on mobilization and deployment;
- *Military Plans* – includes questions on career intent and reasons for staying;

- *Military Training* – includes questions on military occupational specialty/designator/rating/Air Force specialty code, and time spent on military training and other duties;
- *Military Unit* – includes questions on morale, categories/programs of the Selected Reserve, satisfaction with characteristics of the unit, and distance from where the unit meets/drills;
- *Benefits and Programs*– includes questions on information materials, healthcare coverage, exchanges, commissaries, educational benefits, and on-installation and off-installation services and programs;
- *Individual and Family Characteristics* – includes questions on computer use, Web access, gender, race/ethnicity, education, voting, citizenship, marital status, spouse characteristics, other family members, and others in the member's life;
- *Civilian Work* – includes questions on occupation, employment, hours worked, distance learning, and the impact of military obligations on the member's jobs and education;
- *Economic Issues* – includes questions on debt, savings, principal residence, and monthly income and expenses;
- *Full-Time Active Duty National Guard/Reserve* – includes questions for those who are members of the Active Guard and Reserve (AGR), Training and Administration of the Reserve (TAR), or Active Reserve (AR); and

- *Military Life* – includes questions on volunteer work, time spent on military and civilian activities, satisfaction with features of the National Guard/Reserve, overall satisfaction with National Guard/Reserve participation, and satisfaction with characteristics of the location where the member lives.

Sample Design

The population of interest for *Form M* consisted of members of the Selected Reserve from the U.S. Army National Guard, U.S. Army Reserve, U.S. Naval Reserve, U.S. Marine Corps Reserve, Air National Guard, U.S. Air Force Reserve, and U.S. Coast Guard Reserve, below the rank of admiral or general, with at least 6 months service at the time of the first questionnaire mailing. The sample frame included those members who met these criteria in March 2000, with eligibility conditional on also meeting these criteria in August 2000. Complete details of the survey development, administration, and dataset creation are reported in the codebook for the 2000 RCS (Simmons et al., in preparation).

The initial sample consisted of 74,487 members. A total of 35,223 eligible military members returned usable surveys. This represents an adjusted weighted response rate of 47%, which is typical for large-scale surveys of military personnel. The data were weighted to represent the experienced Selected Reserve as of August 2000, at the start of data collection. Complete details of response rates and weighting are reported in Flores-Cervantes and Valliant (in preparation).

Survey Administration

The survey forms were administered separately to stratified random samples of Reserve component members and spouses of Reserve component members. Data were collected by mail and Web with procedures designed to maximize response rates. Beginning in late July 2000, an introductory letter explaining the survey and soliciting cooperation was sent to members. The introductory letter was followed about 3 weeks later by a package containing the questionnaire and instructions for completing and returning the survey. These instructions included offering members the option of completing the survey on the Web. A third letter was sent to thank individuals who had already submitted the questionnaire and to ask those who had not completed and submitted the questionnaire to do so. At approximately 3 weeks, 6 weeks, and 9 weeks after the initial survey mailing, second, third, and fourth questionnaires with letters stressing the importance of the survey were mailed to individuals who had not responded to previous mailings. The field closed on 29 December 2000 with all questionnaires received by that date.

Analytic Procedures

Volume 1 of the tabulations covers military background; Volume 2 covers military plans, military training, and the member's military unit; Volume 3 covers benefits and programs; Volume 4 covers individual and family characteristics; and Volume 5 covers civilian work, economic issues, full-time active duty National Guard/Reserve, and military life.

A very small number of items do not have any tables because tables would violate respondent confidentiality, the answers were not coded at the time of publication, or the answers would be misleading due to a weakness in the questionnaire.

The same set of tables, 43/45/165.1-3, appear in place of the tables for questions 43, 45, 122 and 165. These four questions asked about the member's program. For the sake of accuracy, three of these questions (43, 45, and 165) were combined with administrative data to create the single measure of program used in Tables 43/45/165.1-3. (The same measure of program is also one of five variables by which most items are crosstabulated; see the Subgroups section.)

Estimation Procedures

The 2000 RCS used a complex sample design that required weighting to produce population estimates. This weighting means that standard statistical software packages may be inappropriate for computing standard errors, variances, or tests of statistical significance. For this report, variance estimates were calculated using WesVar¹, a software application specifically designed to provide valid statistical estimates for complex surveys. WesVar uses replication methods for variance estimation.²

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the random variation around population parameters such as a percentage or mean. Estimates in these tabulations are percentages and are reported with 95% confidence intervals.

¹ WesVar® is a registered trademark of Westat, Rockville, MD, USA.

² Replication is an empirical method of establishing sample variation by drawing repeated subsamples from the obtained sample and comparing results to those obtained for the full sample. This empirical calculation of variance is in line with the theory of sample variation, which draws upon the concept of creating repeated samples to establish confidence intervals. Replication methodology produces variance estimates very close to those produced using Taylor series linearization methodology, the other main method of variance estimation.

Percentages in these tabulations have Wilson upper/lower limit confidence intervals, which are asymmetric (Wilson, 1927; Newcombe, 1998). The Wilson confidence interval sets a lower bound of 0% and an upper bound of 100%. This means that, if the lower symmetric confidence interval for a small percentage would normally include a negative number, the lower Wilson confidence interval cannot go below 0. Likewise, if the upper symmetric confidence interval for a large percentage would exceed 100% using the standard approach, the Wilson method limits the upper interval to 100.

Subgroups

Survey items are tabulated in these volumes for experienced Selected Reserve members as a whole (the six components under DoD, plus the Coast Guard Reserve), for experienced members of the six components of the Selected Reserve in DoD, and for subgroups defined by component, paygrade, gender, program, and whether the member had ever been deployed. Respondents were assigned to categories within subgroups primarily through answers provided on the survey. Where answers were missing or conflicting, category assignments were completed using administrative records when possible.

Subgroups were constructed as follows:

- Component is defined by the response to Q1, “Of which Reserve component are you a member?” Based on responses, members are assigned to one of seven categories: Army National Guard (ARNG), Army Reserve (USAR), Naval Reserve (USNR), Marine Corps Reserve (USMCR), Air National Guard (ANG), Air Force Reserve (USAFR), or Coast Guard Reserve (USCGR).

- Paygrade is based on Q3, “What is your current paygrade?” The original 20 categories are collapsed to five for analyses: E1-E4; E5- E9; WO1-WO5; O1-O3; and O4-O6.
- Gender is obtained from Q81, “Are you: (1) Male (2) Female,” and is coded accordingly.
- Program is defined by responses to three questions: Q43, “Please indicate the category of the Selected Reserve to which you belong;” Q45, “Are you a military technician?”; and Q165, “Are you a member of a full-time active duty National Guard/Reserve program (i.e., Active Guard and Reserve (AGR), Training and Administration of the Reserve (TAR), or Active Reserve (AR))?” These questions were used in determining whether a member was a drilling unit Reservist/Traditional Guardsman, in a full-time active duty National Guard/Reserve program, an individual mobilization augmentee, or a military technician. Administrative data were used to resolve conflicts between answers, to fill in missing survey data, and to determine if an AGR/TAR/AR was Title 10 or Title 32.

Data Suppression

Unstable estimates in table cells were suppressed or annotated. Estimates may be unstable because of a small sample size for that column or a large variance in the data or weights. The following rules were used:

- a cell is annotated “NR” (Not Reported) and a cell estimate not published if the unweighted size of its denominator is less than 30;

- a cell estimate is published with an asterisk if the unweighted size of its denominator is 30 to 59; and
- a cell estimate is also published with an asterisk if the unweighted size of its denominator is 60 or greater and the relative standard error for that estimate is greater than 30%.

Interpretation of Tables

The denominator for each column is the weighted number of members “Responding on Item” for whom the item is applicable. Because the questionnaire (see Appendix A) instructed respondents to skip questions that did not apply to them, in quite a few tables the estimate is based on only a subgroup of the experienced Selected Reserve. Consider the following example:

- Table 26.2 does not show the percentages of the entire experienced Selected Reserve that experienced particular problems when mobilized or deployed. Instead, the Table 26.2 percentages are of the subgroup of members who have experienced problems as a result of being mobilized or deployed.

When an item does not apply to the entire experienced Selected Reserve, the table for that item provides a footnote specifying those members who were instructed to skip the item.

ABOUT THIS QUESTIONNAIRE

WHAT IS THE PURPOSE OF THIS SURVEY?

This survey asks about your attitudes and opinions on a wide range of personnel issues in the Reserve components such as morale, well being, and your military plans. This survey will be used to assess programs, policies, and issues affecting Reserve component members and their families. **While no decisions about you alone will be made based on this survey, survey results will influence policy discussions and may result in changes that affect Reserve component members and families.** If you don't respond, your views and the views of other members like you will not be considered in personnel policy reviews and changes.

WHY ME?

You have been selected scientifically to be part of a sample of people who represent members of the Reserve components. Based on your responses and the responses of others, conclusions may be drawn about the views and experiences of Reserve component members overall, and those of demographic subgroups. The validity of these conclusions depends, in part, on receiving enough completed surveys from individuals like you. **The survey results will not be valid if you allow someone else to fill out the survey for you.**

WILL MY SURVEY RESPONSES BE KEPT PRIVATE?

Yes. Under no circumstances will any information about identifiable individuals be released. Your responses will be combined with information from many other members to represent the views and experiences of groups of members. **Do not use any personal, unit, or place names anywhere on this survey.**

PRIVACY NOTICE

In accordance with the Privacy Act of 1974 (Public Law 93-579), this notice informs you of the purpose of the survey and how the findings will be used. Please read it carefully.
